> "From the moment I built my first application, I knew web development was the perfect blend of creativity and logical thinking that would become my passion."

Expert full-stack developer specialising in React, Vue, and Angular with a proven track record of leading projects. Employs a development strategy which combines graphic design principles with seamless user experience, and building maintainable, flexible, and extensible code.

Portfolio Projects

Social Media App
Vue, .NET Core, SQL
JavaScript, C#, Tailwind
Developed features such as posting, commenting and sharing with AJAX requests. Includes account management with JWT authentication.

eCommerce Site
MEAN Stack
MongoDB, Entity Framework, Angular, Node.js, TypeScript, Bootstrap
Implements MongoDB filtering & searching for products with cart functionality.

SaaS Website
React, Next.js, Node.js
PostgreSQL, GraphQL
Software as a service site, optimised for marketing using Next.js, with efficient data retrieval from a PostgreSQL database via GraphQL.
